PROFILE

Creative technologist with a Computer Engineering foundation, specializing in Python, machine learning and AI-assisted digital development. I build ML prototypes, data-driven applications and visually distinctive web experiences, bridging technical implementation with product thinking and creative presentation.

TECHNICAL STACK

PYTHON / DATA

Python • Pandas • NumPy • EDA • Statistics

MACHINE LEARNING

Regression • KNN • Naive Bayes • Decision Tree • Random Forest • SVC • K-Means • PCA • Boosting

NLP / MODELING

TF-IDF • NLP fundamentals • Regularization • Gradient Descent • Confusion Matrix • Model Evaluation

BUILD / DEPLOY

Streamlit • Flask • Postman • MySQL

WEB / AI

HTML • CSS • JavaScript • AI-assisted design, prototyping and development

FEATURED BUILDS

01 THE MIND DETECTIVE

Multi-label emotion detector using the GoEmotions taxonomy and a DistilBERT-based approach, delivered as an interactive Streamlit experience.

02 CREDIT SCORE ML

Large structured-data prediction project with feature engineering and ensemble modeling; best stacking result approximately 0.798 accuracy, with a Streamlit front end.

03 MOVIE RECOMMENDER

Hybrid recommendation system combining TF-IDF content similarity, user-item kNN and Random Forest methods.

SIGNAL

Computer Engineering

CGPA 3.70 / 4.00

IELTS Academic

7.0 • CEFR C1

FOCUS

+ PYTHON

+ MACHINE LEARNING

+ GENERATIVE AI

+ WEB EXPERIENCES

CREATIVE EDGE

- Acting & Theatre
- Debate
- Gaming

LANGUAGES

Bengali / Native

English / Fluent

EXPERIENCE / EDUCATION / CREATIVE RANGE

The technical core, plus the human layer.

EXPERIENCE

HR ASSISTANT • RENOVOPROPTech LTD.

MAR 2024 - MAR 2026

- Managed employee data, HR documentation and coordination between management and staff.
- Handled HR software workflows and monthly budgets.
- Contributed to the development of the company's HR software, bringing technical understanding into an operational role.

EDUCATION

DIPLOMA IN ENGINEERING - COMPUTER TECHNOLOGY

2019 - 2024

Munshiganj Polytechnic Institute • BTEB • CGPA 3.70 / 4.00

Coursework includes OOP, Data Structures, Java Programming, Web Development, DBMS, Operating Systems, Software Engineering, System Analysis & Design, Network Administration, and app/web development projects.

SECONDARY SCHOOL CERTIFICATE (SSC) - SCIENCE

2017 - 2019

Dhaka Board • GPA 4.33 / 5.00

CREATIVE ACHIEVEMENTS

A long-running interest in performance and public expression sits alongside the technical work. Selected awards visible in the supplied trophy collection:

- ◆ First Prize - solo acting / performance competition (Shapla Group).
- ◆ Best Actor recognition in theatre competition.
- ◆ Team leadership recognition in a winning performance group.
- ◆ Recognition across youth cultural, theatre and child-parliament / debate-style programs.

HOW I WORK WITH AI

I use generative AI as a creative and development accelerator: exploring concepts, prototyping interfaces, iterating visual directions, debugging and supporting implementation. The goal is not 'AI-generated for the sake of AI'; it is faster experimentation paired with technical judgment and a deliberate final experience.
